

Washington County Sheriff's Office

2017 ANNUAL REPORT

April 2018

Dedicated to Serve

DALE K. SCHMIDT
SHERIFF

<http://www.washingtoncountysheriffwi.org>

To the Citizens of Washington County,

Due to your on-going support, the Sheriff's Office is a strong organization that proficiently fulfills the duties of Sheriff in Washington County. While each division has its own primary duties, the staff all work together to fulfill the Office mission, *public safety for the citizens and visitors to Washington County*. The Constitutional Office of Sheriff, the structure of the Office and, as always the professional, service-driven staff, make the Sheriff's Office a successful law enforcement agency.

The following is a general report on Sheriff's Office activities for the year 2017. The report is divided into a number of sections, highlighting divisions or program areas. As can be seen, the Sheriff's Office has a variety of responsibilities to the community.

Not only do we serve as the primary law enforcement agency for areas without a police department, but sworn staff also transport prisoners, provide security to the courts, and assist police departments as requested. The Sheriff's Office also leads the Multi-Jurisdictional Drug Enforcement Group, provides recreational patrols (boat, snowmobile and UTV), a SWAT Team (in partnership with the Germantown Police Department), a Dive/Rescue Team (in partnership with fire departments), and a Crash Reconstruction Team. The Office also maintains an indoor and outdoor Firing Range, Command Post Vehicle, and Unmanned Aerial Vehicle, all available to law enforcement agencies in the county with support from the Sheriff's staff.

The Sheriff's Office also operates the County Jail, where all subjects arrested by law enforcement in Washington County are booked and housed for court. The Jail also houses inmates sentenced to county jail by the courts. Additionally, co-located to the Jail is the county's Juvenile Detention Center. The purpose is to house juvenile offenders on a short term basis.

Communications is an important component of public safety. The Sheriff's Office operates a dispatch center that receives emergency and non-emergency calls from the public requesting assistance from law enforcement, fire, and EMS. They distribute those requests to the appropriate agency(s). The Sheriff's dispatch is the primary communication center not only for Sheriff's Deputies, but six full and part time police departments and thirteen fire and EMS agencies. They also serve as the Mutual Aid Box Alarm System dispatch center for the county's fire departments.

Also in this division is the county-wide radio system, utilized by all public safety agencies. This too is a vital component of public safety. The current VHF system has been in operation since 2010. An additional four site 700 MHz system is due to come on line in mid-2018. That portion of the system is designed to provide better indoor radio coverage in most municipal areas of the county. In early 2018, the long-time Radio Administrator resigned for a position with the WI DNR. The Sheriff's Office has a tentative agreement with its radio system maintenance provider to serve as the Administrator. This plan will provide excellent radio system knowledge and maintain the goal of operating a very reliable radio system.

2017 Brief Activities Summary

In general, statistically, activity levels were close to 2016, but with a general increase in all three divisions.

In Communications, there was a slight reduction in 911 calls, and all phone calls overall when compared to 2016. Service to fire and EMS however increased with 4278 calls in 2017 compared to 3819 in 2016.

In Corrections, the average daily adult population rose 13%, but at 239 remained below the recent high years of 2014 and 2015 when the average was 253. Adult bookings rose for the 3rd year after multiple years of declining.

The Patrol area saw a decrease in case investigations, but an overall increase (3%) in calls for service to 49,095. Caseloads for the Detective Bureau and Drug Task Force remained high.

Concerning Trends

HIGH SPEED PURSUITS-A concerning trend over the past two years is a marked increase in the number of individuals fleeing from law enforcement. Deputies initiated or assisted other agencies in 20 pursuits in 2016, and 18 in 2017. Going back to 2010, the highest previous number was 9. The offenders were committing multiple different types of offenses when they fled from law enforcement. Offenses included stolen vehicles, drunk drivers, suspects' in criminal activity and simple traffic violations. Operators were a variety of ages.

Pursuits are inherently dangerous to the public and Deputies, but are necessary at times to hold offenders accountable. Deputies, Communications Officers and Supervisors are working well with surrounding agencies, and all are performing well in these high risk situations.

MILWAUKEE CRIME-Another concerning trend can be found in the jail bookings. The number of arrestees who provided City of Milwaukee addresses as their residence in 2017 was 885. That was 19.61% of the bookings. In 2014, the number was 598 or 14.19%. The total bookings have increased each year since 2014. If the Milwaukee resident bookings are removed, the number of bookings from 2014 to 2016, would have declined. In 2017, it increased regardless. This indicates a significant portion of crime in Washington County is being committed by City of Milwaukee residents.

FAILURE TO APPEAR IN COURT-In 2017, Courthouse Security Deputies began logging defendants that did not appear for court, and subsequently had arrest warrants issued for them. An approximate average is 40 to 60 defendants per month. Many defendants are summoned to court by the District Attorney, or have mandatory court dates issued to them through criminal traffic citations. Many others, however, are on bond, either signature or cash, and fail to make appearances. Some of them are incarcerated elsewhere but most just don't appear.

When defendants fail to make court appearances, they slow down the court system and require law enforcement to again find them and make another arrest. It also means, defendants are not being held accountable for their crimes, and may be creating more victims while they are actually in the criminal justice process.

In the past, it took several days for the signed warrant to be entered into the National Crime Information Center and WI Criminal Information Bureau databases. In 2017, Sheriff's staff worked with the Clerk of Courts Office to greatly speed up the process. Warrants are now received at the Sheriff's Office on the same day as the missed court appearance, and are reviewed by a supervisor for seriousness of offense. Those warrants are being immediately entered into the databases and Sheriff's Deputies are actively looking for them. Additionally, the Failure to Appear log is being shared with the Police Departments in Washington County. Those departments can also then actively look for defendants in their jurisdictions.

Unfortunately, many defendants who fail to appear do not live in the county. Approximately 45% provide an address in Milwaukee County. Searching for and arresting defendants in those cases requires assistance from law enforcement there. Due to caseloads in those areas, we only request their help when the case involves a serious criminal charge. Others will eventually be arrested when they do things that draw the attention of law enforcement.

It is hoped that by making these adjustments, defendants who fail to appear in court are taken back into custody more quickly which should prevent them from committing new crimes, and also holds them more accountable for their original ones.

As can be seen in this report, the Sheriff's Office staff remained very busy in 2017, and there is always more that can be improved upon. Going forward, to meet the expectations of our citizens, more staff should be considered in all areas. Corrections, Administrative, Communications and Sworn staff needs will all be reviewed for the 2019 budget.

Closing

The annual report is produced to give the public a picture of the work done at the Sheriff's Office in a given year. While it shows there is a workload, it does not really depict effort, commitment, patience and ethical character exhibited by Sheriff's staff on a daily basis. To recognize the staff for their work that goes on behind these statistics, I would like to dedicate the Annual Report to them. Thank you.

Dale K. Schmidt, Sheriff
Washington County

2017 US OPEN-ERIN HILLS

In 2017, the US Open was held for the first time in Wisconsin at Erin Hills in the Town of Erin. The Sheriff's Office was the lead law enforcement agency for this event. After three years of planning, the event was successfully held June 12th to the 18th. Over 200,000 people attended the event, and over 8,000 hours of law enforcement time was put into the event just on the grounds. Almost 5,000 hours by Sheriff's Office staff. This included staff from Operations, Corrections and Administration. The USGA reimbursed over \$450,000 for law enforcement services.

Early on, the Sheriff's Office, with the support of the County Board, made a strong commitment to the USGA and Erin Hills to support this international event. As the lead agency for Public Safety at the event, the Sheriff's Office staff provided the leadership for several public safety divisions.

Incident Commander	Sheriff Dale Schmidt
Deputy Incident Commander	Captain Martin Schulteis
Communications	Lieutenant Robert Stuesser
Logistics and Planning	Lieutenant Timothy Kemps
Security Operations	Lieutenant Ryan Herman

Other public safety agencies were equal partners and provided leadership and resources in their specialties.

Medical, Fire and EMS	Chief Paul Stephens, Hartford Fire and Rescue
Transportation	Captain Timothy Carnahan, WI State Patrol
Explosives Ordnance Disposal	FBI
Intelligence	FBI

It is important to point out that while not all Sheriff's staff worked at the event, all of the Communications, Patrol, Detective and Administrative staff were involved because the Sheriff's Office continued to serve the public in its daily operations.

While no major incidents of criminal violence occurred, this public safety team did work through several challenges during the week. Severe weather, severe heat, suspicious people and circumstances, and an airship crash were all issues the team worked through successfully.

BUDGET**2017 BUDGET**

The 2017 budget year ended with an approximate surplus of \$231,508 most of which will be returned to the General Fund. Expenses were \$19,910,662, offset by \$2,694,111 in Revenue. Savings in healthcare and benefits occurred due to staff vacancies and turnover. Revenues were higher due to Other Security Details.

ACKNOWLEDGEMENTS

Communications Officer Rebecca Scharinger – Actions taken during an at-home birth

COMMENDATIONS

Deputy Morgan Dombrowski – Actions during a fire in the Village of Kewaskum

Deputy Chad Polinske – Actions during a multi-vehicle traffic crash

Citizen Douglas J. Unser – Actions in relaying information to dispatch on a suspect

Citizen John Loosen – Actions in helping an elderly person from a burning house

The following staff received commendations for their roles in the 2017 investigations of an attempted homicide in the Village of Richfield:

Lieutenant Paul Buth

Lieutenant Ryan Herman

Lieutenant Robert Stuesser

Sergeant Randy Boudry

Detective Tom Abbott

Detective Mark Sette

Detective Peter Rank

Detective Aaron Walsh

Detective Hope Demler

Investigator Don Kapla

Investigator Jesse Williams

Investigator James Frankow

Deputy Sheriff Ronald Virchow

Deputy Sheriff Michael Anderson

Deputy Sheriff Bradley Bautz

Deputy Sheriff Bradley Rodich

Deputy Sheriff Ryan Gullickson

Deputy Sheriff Anthony Conforti

Deputy Sheriff Cody Siebel

WBPD Officer Lee Goodman

Communications Officer Cyndi Skodinski

Communications Officer Charlotte Martin

Communications Officer Claire Brace

Communications Officer Kelly Hall

Communications Officer Alexandria Mahl

The following staff received commendations for their roles in the 2017 pursuit of a stolen vehicle:

Lieutenant Timothy Kemps

Deputy Dirk Stoltz

Deputy Bryan Droese

Deputy Anthony Conforti

Communications Officer Rebecca Scharinger

Communications Officer Cyndi Skodinski

New employees in 2017 were: Deputy Sheriffs: Daniel Halpin, Nathaniel Sincouler, Kirk Mayer; Correction Officers: Megan Bares, Allison Kolthoff, Jason Eckart, Joseph Salazar, Stephanie Kalish, Matthew Damp, Phillip Marker, Spencer Holms, Rachel Hale, Daniel Piotrowski, Candice Marshall-Watson; Communication Officers: Mark Gerasimov, Kelly Wondra, Samantha Sommer, Steven Erdmann; Special Deputy Sheriffs: Steven Seitz, Andrew Martin; Accounting Clerk: Kristine Brendel; Administrative Secretary: Mary Jo Banfield; Accounting Supervisor: Kelly Cisar

The Office lost nearly 150 years of experience through resignations and retirements in 2017.

Communication Officer – Angela Rosio (3 mo.)
Communication Officer – Michelle TeStroete (2 years)
Communication Officer – Mark Gerasimov (2 mo.)
Communication Officer – Kelly Wondra (3 mo.)
Correction Officer – Susan Bertram (18 years)
Correction Officer – Brooke Herriges (2 years)
Correction Officer – Megan Bares (1 mo.)
Correction Officer – Alex Gantner (1 year)
Correction Officer – Alyssa Schultz (1 year)
Correction Officer – Corey VandeZande (2 years)
Correction Officer II – Laura Adey (16 years)
Deputy Sheriff – Andrew Docksey (1 year)
Deputy Sheriff – Chad Polinski (9 years)
Deputy Sheriff – Kevin Mass (26 years)
Special Deputy – Eric Essinger (2 years)
Special Deputy – Linda Cox (22 years)
Special Deputy – Michael Maeder (33 years)
Program Assistant – Dolores Malchow (14 years)

Promotions:

Correction Officer II - Russell Sadowski
Correction Officer II – Erik Valley
Correction Officer II – Randy Berry
Correction Officer II – Anita Kohlhagen
Correction Officer II – Michael Huber
Correction Officer II – Marissa Mayer
Correction Officer II – Angela Baerber
Correction Officer II – Nicole Simon
Correction Officer II – Dawn Manteufel
Correction Officer II – Jessica Parsons

Respectfully submitted,

Dale K. Schmidt / Sheriff

ADMINISTRATIVE DIVISION

The Administrative Division provides the necessary support for the efficient functioning of the command staff, jail division and the operational elements of the Washington County Sheriff's Office. The staff coordinates technological improvements for the department, manages budgeting and purchasing activities, administration of the county-wide radio system and provides clerical support, which includes the transcription of official police reports, data entry, report filing/scanning, administration of civil process, record requests and telephone/reception duties.

CORRECTIONS

The Corrections Division of the Washington County Sheriff's Office provides safe and secure detention facilities for both adults and juvenile offenders. The Washington County Jail houses pre-trial detainees as well as convicted detainees, who are 17 and older. The co-located Juvenile Secure Detention facility houses juvenile offenders from 10-17 years old.

The Washington County Jail has had a five year trend (2012-2016) of very little fluctuation in the total number of bookings. During that time frame, the biggest change in overall bookings was 1.3% from one year to another. That trend ended in 2017 when the county jail booked 4,514 subjects, which was a 6.4% increase over the total bookings for 2016. This increase in overall bookings paired with inmates remaining in custody for longer periods of time caused our Average Daily Population (ADP) to increase from 205 in 2016 to 230 in 2017. The overall Average Daily Population of the Jail remained much more consistent in 2017 with our lowest monthly ADP totaling 227 and our highest monthly average totaling 258. In years past we have experienced much larger gaps between our high APD's and our low ADP's at times having a difference of 85+ inmates.

Looking ahead, the Washington County Jail has several major projects that are currently being worked on. As part of the Capital Improvement Project, planning has begun on a major camera system update. The focus of this project is to replace the obsolete recording devices of our current system, utilize as much of our functioning equipment as possible, while preparing our camera system for future upgrades and expansion. The camera project is anticipated to start sometime in the first quarter of 2018. Another project that is in the early planning stages is obtaining a full body scanner to help combat the introduction of contraband into the Jail. As drug abuse continues to be a major concern for all of Law Enforcement, the Jail has seen an increase in the amount of drugs being smuggled into the Jail. There are measures in place to detect contraband, but if it is concealed internally, the only truly effective tool is the full body scanner which many correctional facilities have chosen to add to their operations. This project is in the early stages of planning, but we are hopeful to make this a reality in the near future.

INMATE EDUCATION

Moraine Park Technical College, through the Basic Skills in Jails Grant, provides programming in the area of basic education to inmates in the Washington County Jail. The goals of this program are to assist individuals in obtaining their Certificate of General Educational Development (G.E.D.) / High School Equivalency Diploma, (H.S.E.D.) and to equip participants with the knowledge and skills necessary for their reentry into their communities. Education is a key component when looking at recidivism. Simply attending school behind bars reduces the likelihood of reentry into jail by 29%.

Moraine Park provides an instructor, computers, and educational supplies. Students are tested for their entry educational level and offered courses to meet their needs. A test administrator from Moraine Park Technical College is available every three weeks to provide in-house G.E.D. testing.

In 2017, a total of 56 inmates participated in educational programming at the Washington County Jail. Thirty G.E.D. tests were administered and all individuals passed their tests. Throughout the course of the year there were also 13 students who achieved Educational Functioning Level (EFL) gains. A total of six individuals accomplished the goal of completing their High School Credential, which is a very impressive number when compared to similar programs.

Along with our partnership with Moraine Park, we also offer education opportunities that are provided through Washington County UW-Extension and community volunteers. These classes focus on financial planning and different types of wellness classes that address topics from nutrition to parenting. In 2017, our in-house Mental Health Provider also started two ongoing group meetings that help inmates with building coping skills and improving interpersonal relationships.

It continues to be our goal to send inmates back into the community with more skills than when they entered our facility.

CHAPLAINCY PROGRAM

The purpose of the Jail Chaplaincy Program is to identify and meet the spiritual needs of all inmates and to provide a means, for established religious groups, to minister to the inmate population within the Washington County Jail. Reverend James Hill, who has been the Jail Chaplain at Washington County since 2000, oversees the program which is supported by several dedicated clergy volunteers along with a strong group of lay volunteers. In 2017, the Washington County Jail had over 26 different religions being practiced by adults booked into the Jail. Reverend Hill has continued to provide direction and knowledge of all major types of religions, as well as some lesser known practices, which is essential in meeting the needs of an ever changing inmate population.

The Washington County Jail recognizes the right of inmates to practice the religion of their choice while incarcerated. Substantial efforts have been made by the jail staff to facilitate these rights. All inmates have access to religious resources, services and instruction on a voluntary basis. Bible study programs and prayer services are held on a weekly basis and are well diversified in order to provide all inmates with an opportunity to participate.

JAIL FOOD SERVICE

Summit Food Service (formerly known as A'viands) continued to provide meal services to the Washington County Jail throughout 2017. The kitchen is supervised by Wanda Luebke who has been our on-site Food Services Manager since the spring of 2015. Wanda supervises a kitchen staff that consists of four Cook Supervisors who monitor and direct a group of inmate workers who are responsible for all meal preparation.

In 2017, we served 225,844 Adult Meals and 11,795 Juvenile Meals, plus other dietary meals as needed based on the Jail population. These meals are planned according to contractual food service requirements. The Standardized Diet Plans have been developed by registered dietitians to ensure adequate nutrition is being provided and that each individual inmate is provided with a diet that meets their nutritional needs to promote general health and well-being. The meals are provided on a four week cycle that takes into account nutritional requirement of the entire population. Special Diets are used when individuals require therapeutic diets, religious diets, and when holiday meals are served. When developing the menus, the dietitian takes into account that the meals should have variety in texture, color, flavor, and appearance. The registered dietitian reviews the menus annually to ensure they are reaching the caloric requirements.

In 2017, the overall cost of meals and kitchen supplies was \$424,124, with each adult meal averaging \$1.66 and each juvenile meals averaging \$2.10.

WASHINGTON COUNTY SHERIFF'S OFFICE 2017 JAIL STATISTICS

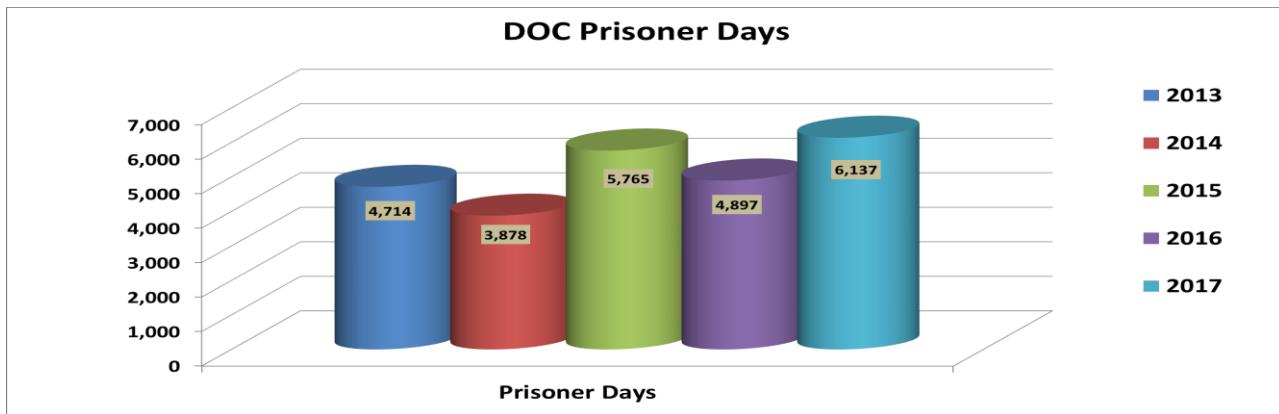

WASHINGTON COUNTY JAIL
AverageLength of Stay - Adults 2017

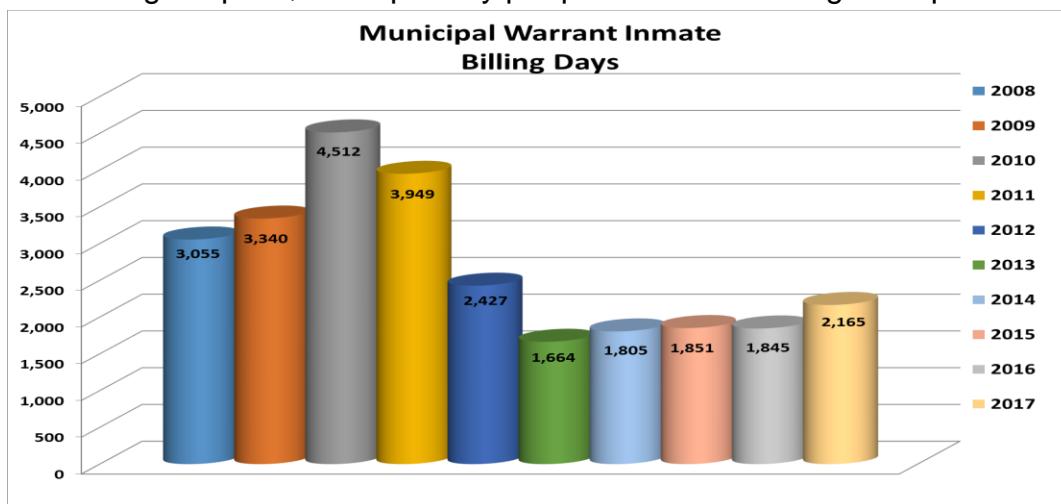

Prisoner Admissions 2017

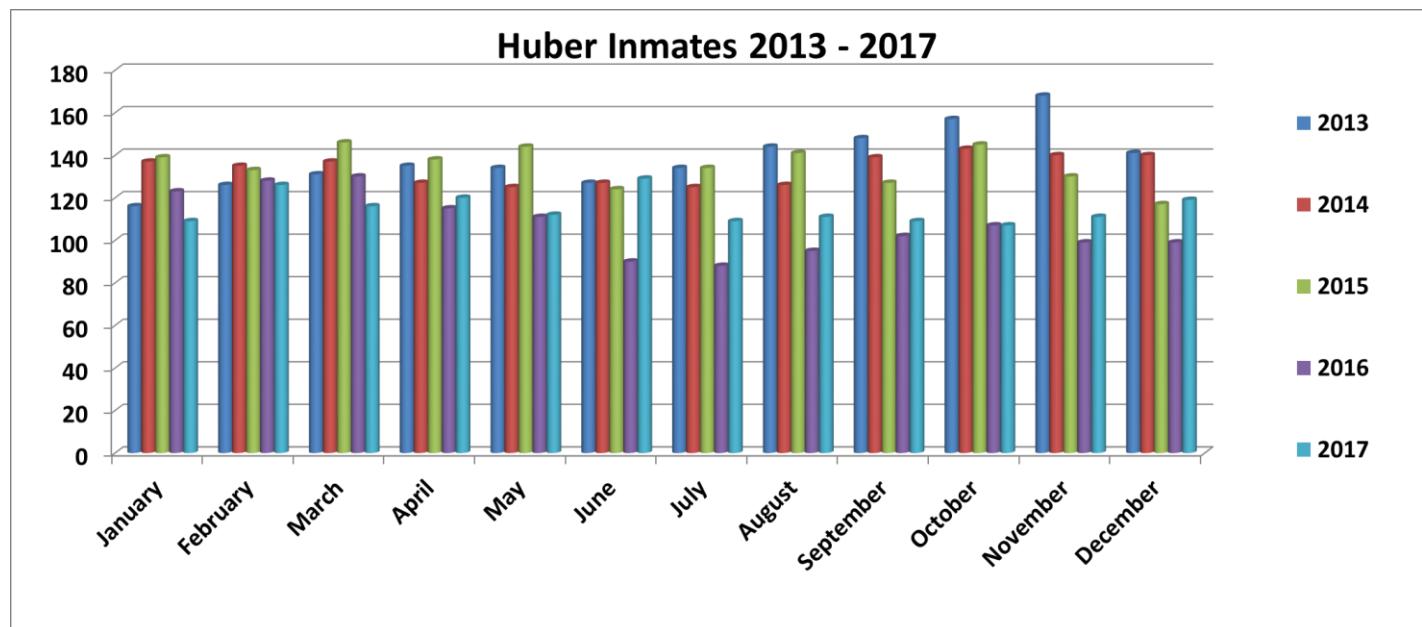

The Jail charges up to \$51.46 per day per prisoner for housing state prisoners under contract.

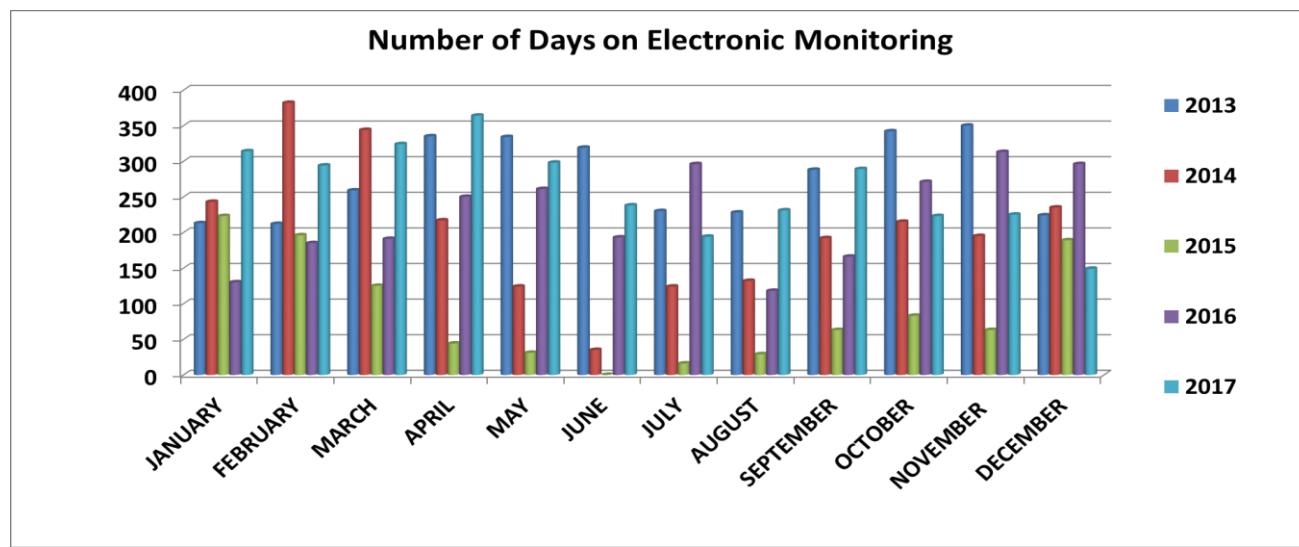

The Mid-Moraine Municipal Court is billed \$25.00 per day for housing inmates on municipal sentences.

ELECTRONIC MONITORING

The Washington County Sheriff's Office has continued to partner with 3M Monitoring to provide the equipment for the Electronic Monitoring Program in the Jail. The Electronic Monitoring Program currently uses one-piece GPS tracking bracelets, which utilize GPS satellites to establish offender's locations and a cellular network to transmit data almost immediately. Additionally, the Jail now has access to TRAC mobile breath alcohol monitoring units. TRAC offers advanced technology to provide real-time alcohol test notifications, utilizing enhanced facial recognition software. The units are compatible with both cellular and WiFi devices, allowing for a broader range of coverage. The variety of equipment available allows the Jail to customize the level of supervision, based on the individual needs of each Inmate enrolled in the program.

The average daily population for the Electronic Monitoring Program in 2017 was 8.78 and we anticipate that this average will remain consistent going forward. Due to improved staffing levels, additional Officers have been trained to assist with the Electronic Monitoring Program, allowing for expanded supervision of the inmates assigned to the program. Besides the responsibility of monitoring and checking on the inmates on Electronic Monitoring, these Officers are also utilized to make random checks on other work release inmates to verify that they are also complying with the guidelines of the Huber Law.

JUVENILE DETENTION

In 2017, Juvenile Detention recorded 325 bookings, of which 318 were housed in the Juvenile Detention Center for a total of 4000 days of billed detention. Washington County Juvenile Detention acts as a regional detention facility, housing juveniles from Kenosha, Ozaukee, Dodge, Waukesha and occasionally Jefferson, Walworth and Winnebago Counties. *There were also instances where we housed other counties due to the location of the juvenile at the time, or their usual detention facility was full. Boarding revenue for 2017 was \$363,480.

The West Bend School District continued to provide our education program which consists of the regular school year that extends until the end of June and is followed by a five week summer school program. This provides nearly a year round school program for the Juveniles in Secure Detention. Juvenile Detention also continues to offer other programming such as Youth and Family, UW Extension, counseling through Elevate and, among other things, volunteer services through Youth for Christ, and Friends of Abused Families. Emphasis has been placed on assigning officers to longer assignments in Juvenile Detention which has facilitated consistency, positive group and individual encounters with the youth, and has been effective in allowing the officers to keep up with juvenile laws, procedures, and the proper handling of paperwork.

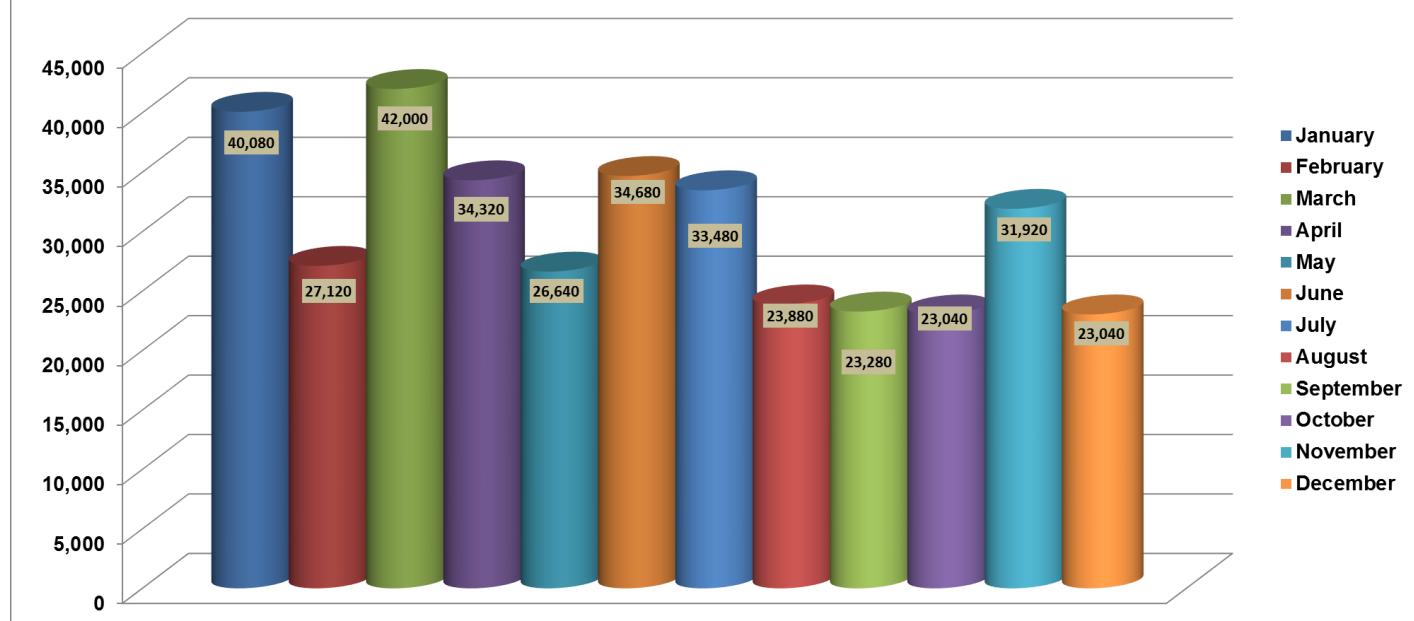

Aside from the duties related to Juvenile Detention, the Juvenile Detention Administrator continues to handle most departmental functions related to juvenile matters. This includes court appearances for juveniles in custody, maintaining juvenile files for law enforcement, contacts with juveniles, coordinating training on juvenile matters for correctional officers, planning and providing programming for detained juveniles, orientation for volunteers in the jail and juvenile detention, working with other county officials regarding placement issues for juveniles, and handling/approving discipline and conducting the due process hearings.

Washington County Secure Detention Juvenile Average Length of Stay 2017

Age Breakdown - 2017 Juvenile Bookings

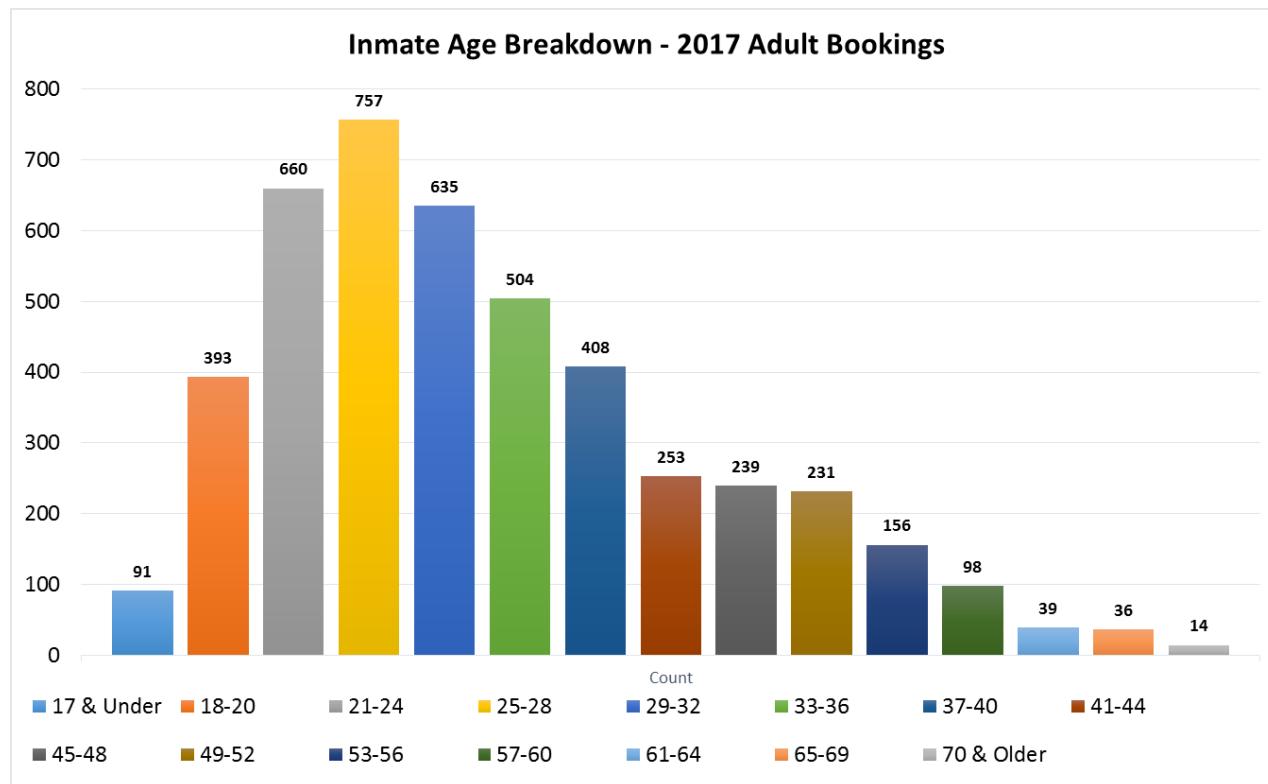

GANG REPORT

The Washington County Jail formed a gang intelligence unit in 2013 due to the increased presence of gang members that were entering the facility. The existence of gang involved inmates is concerning because they can contribute to higher rates of violence against staff and other inmates, increase in racial tensions within the facility, challenge the rehabilitative programs offered, threaten the safety of our community, and negatively impact offenders reintegration into society. The Washington County Jail is committed to not only maintaining the safety and security of our facility but our community. Gang members enter correctional facilities and work to expand their criminal network and operating areas. The Gang unit works to identify and document known and suspected gang members. They work tirelessly to collect data, conduct interviews, obtain names of known associates, document and photograph tattoos, identify and remove gang graffiti within the facility, and collect other information that can be used by other Law enforcement agencies. The Jail utilizes the data collected and the gang identifications to determine housing and programming opportunities to thus limit the chance of gang activity or recruitment.

Since the creation of this unit in 2013 we have identified approximately 190 gang members that have entered our facility. These individuals comprise over 30 different gangs including various street gangs, outlaw motorcycle gangs, and other threat groups. These gangs range from well-known factions to new and ever evolving hybrid gangs. Our gang unit works collaboratively with other gang intelligence units throughout the State to share information and to stay current with evolving trends and developments within the gang subculture. The Washington County Jail is committed to combating gangs and the dangers they pose to our Jail and community.

The primary concern is that a large percentage of City of Milwaukee residents are arrested/booked for crimes committed in Washington County.

The comparison is City of Milwaukee to Washington County residents, by booking charge.
The Washington County jurisdictions are by mailing address, not municipal boundaries.
The Milwaukee jurisdiction is not by zip code, but are all City of Milwaukee.
Other Milwaukee County jurisdictions are not shown, but significantly less in numbers.

Washington County Bookings City of Milwaukee Residents

Year	Total Bookings	Milwaukee Residents	Pct. Of Total Bookings
2014	4213	598	14.19%
2015	4188	636	15.19%
2016	4241	703	16.58%
2017	4514	885	19.61%

TRAINING

Corrections Officers are required to be trained and certified. This is regulated by the Wisconsin Department of Justice Training and Standards Bureau. Corrections Officers undergo 160 hours of initial instruction. Some of that instruction is parallel to the training Law Enforcement Officers must also undergo. The basic jail academy is a program that provides the curriculum required for jail officer certification. The course focuses on the philosophical and tactical principals of working as a Correctional Officer. Topics covered include state law and administrative code provisions governing county jails and the basic constitutional rights of prisoners. An important part of that training is Professional Communications Skills, or PCS. Professional Communication Skills are a Law Enforcement Officer's and Corrections Officer's most used tool. Corrections Officers must be able to interact with inmates in all types of situations. They must be able to maintain the safety and security of the jail, while also maintaining and/or establishing control. PCS assists Officers to de-escalate or re-direct sudden verbal outbursts or acts of aggression before going hands-on in most cases. In the case of a non-compliant inmate, Officers may have to succumb to the use of physical force in order to establish control if it is lost, or to keep the jail and its occupants safe and secure. The Wisconsin trained standard for use of force in a correctional setting is called POSC (Principals of Subject Control). POSC is a system of verbalization skills, coupled with physical alternatives that are designed to help Correctional Officers maintain the safety, security, and control of the jail.

In order to maintain certification, all certified Corrections Officers must complete a minimum of 24 hours of annual recertification training each state fiscal year. To assist in this, the Washington County Jail has its own LESB (Law Enforcement Standards Board) trained instructors that train all facets of the state standard curriculum. This training is also supplemented with the following:

- Gang Training
- Leadership Training
- CPR/AED
- Taser
- Drug Recognition
- Fire
- Human Trafficking
- Narcan
- Mental Illness

There are two growing areas of concern in Corrections, one is Mental Illness and the other is the Opioid epidemic.

Over the past few years, the number of individuals that come to jail with mental illness has steadily grown. Although Crisis Intervention Training is covered in the Jail Academy Curriculum, in an effort to better understand these individuals, the Washington County Jail has been sending its officers to Crisis Intervention Partners (CIP) training. CIP is a 16 hour training designed to help better understand and improve interactions with people who experience mental health crises. Good communication skills only work when you can effectively reach the person you are trying to communicate with and CIP helps us to accomplish that.

With the ever present opioid epidemic, the Washington County Jail has begun training its officers in administering Narcan in overdose situations. Although Emergency Medical Services is only minutes away, every minute counts in a medical emergency and we believe early Narcan administration during CPR gives us an increased chance to save lives. Not only will the Narcan help to potentially save the lives of inmates, but Officers and other staff as well who are also at risk of opioid overdose through accidental ingestion. The early administration of Narcan during CPR efforts helps us to employ our best efforts until EMS arrives.

The Washington County Jail continues to strive to provide its officers with the necessary training needed to keep the facility, its occupants, and the public, safe and secure.

OPERATIONS DIVISION ACTIVITY

To best understand the annual activity of the Operations Division, activity has been divided into two main categories:

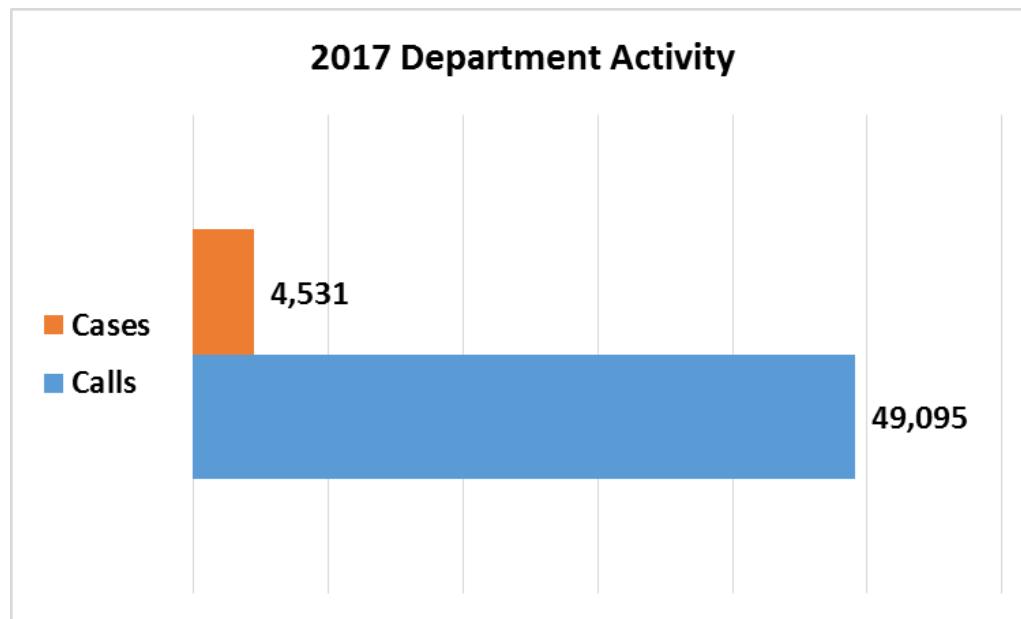

Calls > Case Reports

Calls represent the widest range of activity engaged in by Deputies. When any call is received by the Sheriff's Office that requires a response from a Deputy, the information about the call is entered into our computer system. This data entry is called a "Call". Calls can be created when a dispatcher enters the information into our computer system, or when they are entered by a Deputy into a squad computer when he/she initiates activity in the field. A call can be everything from a serious criminal investigation to a traffic stop and most every activity in between.

Case Report is a written police report that is filed by a Deputy. Case reports always start as a call. If a Deputy responds to a call and a written police report is required, a case report is started. For example, all criminal cases are recorded in a case report. The Deputy dictates the narrative portion of the case report, a program assistant types the report and the report is filed in the front office.

The following sections will break down the types and numbers of Calls and Case reports completed by the Operations Division in 2017. The total number of Calls includes all Calls and Case reports.

In 2017 the Sheriff's Office handled 49,095 calls for service and 4,531 cases.

ACCIDENTS

All crashes are reported electronically to the state using Traffic and Criminal Software (TraCS). The table below was created using data from TraCS.

	2013	2014	2015	2016	2017
PERSONAL INJURY ACCIDENTS	302	227	263	265	284
PROPERTY DAMAGE ACCIDENTS	801	821	745	857	717
CAR KILL DEER	645	628	668	686	631
TOTAL ACCIDENTS	1748	1676	1676	1808	1632
FATALITIES (# of deceased persons)	6	11	6	10	5
PERSONS INJURED	424	397	332	348	396
HIT & RUN ACCIDENTS			135	154	163
OWI (INVOLVING ACCIDENTS)			54	49	40

CRASH RECONSTRUCTION

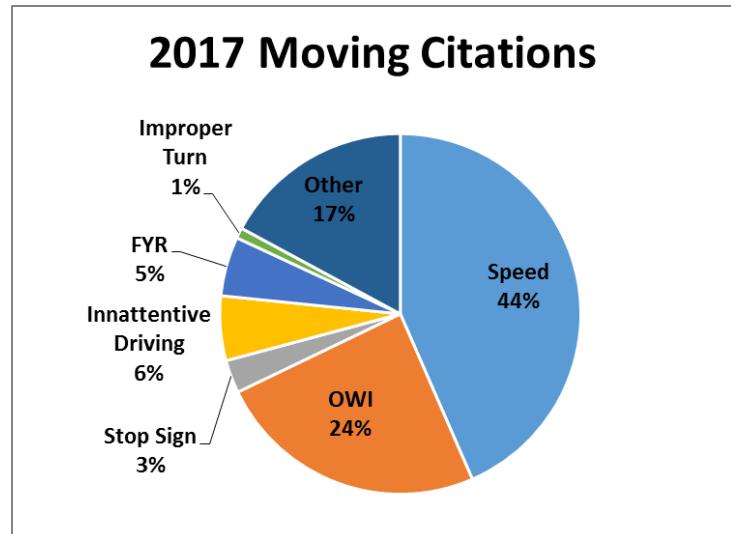

The Sheriff's Office Crash Reconstruction Team is comprised of 6 members who have all received specialized training in crash investigation. Team members are also trained in the use of state of the art equipment to assist with these investigations. In 2017, the team was called in to investigate 5 serious or fatal accidents. These cases involved 6 serious injuries, and 3 fatalities. Two of these investigations were conducted as assistance to other county law enforcement agencies (Jackson Police and Hartford Police). In addition to these cases, the team is involved on a regular basis with the Patrol Division - providing advice and direction, as well as performing speed estimates and other calculations that are needed. The team also provides support to the Investigations Division, taking aerial photographs, creating scale diagrams, and generating 3-D renderings of crime scenes.

TRAFFIC SAFETY & ENFORCEMENT

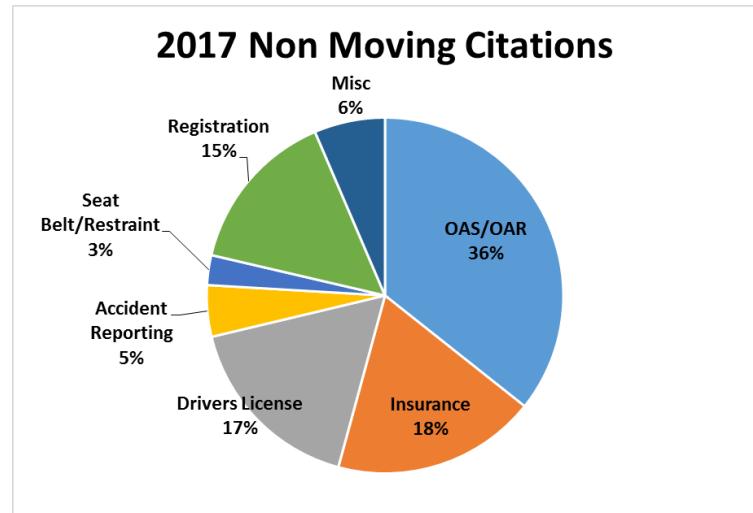

Traffic safety remains a high priority for the Sheriff's Office. Through high visibility, patrol and the enforcement of traffic laws, patrol Deputies assigned to the Operations Division strive to reduce accidents, injuries and motor vehicle related deaths on our highways.

TRAFFIC CITATIONS

A total of **3,367 traffic citations** were issued by Deputies in 2017. **Moving violations accounted for 1,484** or 44% of the citations issued by Deputies during the year. Speed related violations were predominant at 44%. Operating while intoxicated accounted for 24% of all cites. Failure to yield, stop sign violations, inattentive driving and improper turns accounted for another 15% of the citations issued. All other vioations accounted for 17%.

1,883 citations were issued for non-moving violations. These offenses involve serious traffic safety issues such as operating after suspension or revocation, seatbelt, child restraint and motor vehicle equipment violations. Citations for persons operating after suspension or revocation of their driver's license accounted for the largest number of citations issued for non-moving violations. Additionally, 127 parking citations were issued to motorists in 2017.

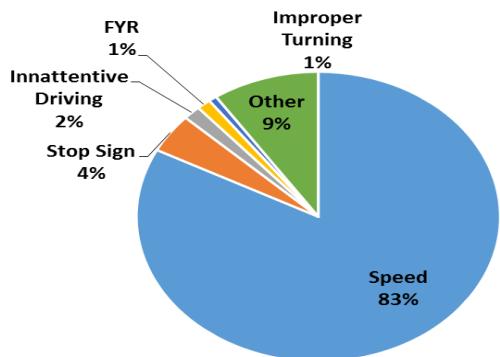

WARNINGS / VIOLATION NOTICES

Moving Violations:

A total of **2,180** notices were issued for moving violations. Speed related violations accounted for the majority of warnings issued to motorists. Approximately 83% of warnings issued for moving violations were for speeding. Stop sign, traffic signal and other moving violations account for many of the remaining warnings issued to motorists.

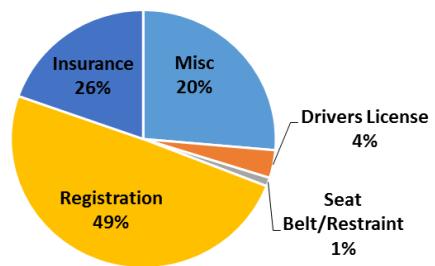

2017 Moving Warnings

Non-Moving Violations:

Notices are also issued for non-moving violations, such as expired or non registration, proof of insurance, lighting and equipment violations. A total of **1,674** were issued for these non-moving violations in 2017.

2017 Non Moving Warnings

OWI ENFORCEMENT

196 citations were issued by Deputies in 2017 related to Operating While Intoxicated. Additionally, 146 citations were issued for Prohibited Alcohol Concentration and 9 were issued for having a Restricted Controlled Substance (an illegal drug in their blood). In Wisconsin, a person is first arrested and issued a citation for OWI. A test via intoximeter or blood test will show blood alcohol levels. If the test indicates a blood alcohol level over the legal limit, a citation is issued for Operating with a Prohibited Alcohol Concentration. As it is statewide, impaired driving continues to be a concern in Washington County, as increasing numbers of operators are suspected to be under the influence not only of alcohol, but prescription or illegal drugs

CITIZEN TRAFFIC COMPLAINTS

To be responsive to specific traffic-related complaints reported to the Sheriff's Office by concerned citizens, Supervisors log and assign special traffic assignments to Deputies. These assignments are conducted as time permits and are in addition to the normal traffic patrol which Deputies engage in on a daily basis. In 2017, a total of 124 traffic enforcements were logged by Deputies. Of those logged traffic enforcements, numerous were a result of specific citizen concerns.

These assignments addressed speeding, stop sign violations, illegal passing, overweight vehicles, vehicle disorderly conduct, racing vehicles and school bus violations and were conducted on U.S., state, county and town highways.

COMMERCIAL MOTOR VEHICLE ENFORCEMENT

Sergeant Michael Hennes and Deputy Justin Jilling are trained and certified as Level I Truck Inspectors and are affiliated with the Commercial Vehicle Safety Alliance, an international not-for-profit organization comprised of local, state and federal motor carrier safety officials and industry representatives from the United States, Canada, and Mexico. In 2017, approximately 51 hours were spent conducting 35 commercial motor vehicle inspections. 149 violations were found during these inspections with 17 vehicles and 4 operators being placed out of service.

Also in 2017, the Sheriff's Office organized 3 Commercial Motor Vehicle / High Visibility Traffic Enforcement / Drug Interdiction events which involved multiple agencies.

RESULTS OF ALL 3 CMV EVENTS			
Traffic Stops	139	Warrant Arrests	7

K9 Alerts	3		

ATV, BOAT AND SNOWMOBILE ENFORCEMENT

The Eisenbahn Trail continues to be a popular recreational destination for residents. Single Deputy ATV patrols are conducted on the Eisenbahn as time and manpower permits. Approximately 170 miles of patrol were conducted over 13.5 hours. The citizen feedback on these patrols was very positive and the patrols afforded Deputies the opportunity to interact with trail users and answer questions from the public.

The Sheriff's Office continued its snowmobile program under a grant from the State Department of Natural Resources in 2017. Trails were open only for a brief period of time in February and December. During that time frame, deputies worked 49 hours and issued 5 citations for no safety certificate, no headlights, no registration and 2 trespassing.

Ninety-six and a half hours of patrol were conducted on the lakes of Washington County during 2017 (Bark, Big Cedar, Druid, Friess, Green, Lake Five, Little Cedar, Little Friess, Pike, Silver, and Wallace). Nine citations were issued along with 12 warnings and 8 safety inspections.

WASHINGTON COUNTY DIVE TEAM

The Washington County Dive Team continues to operate under the direction of the Washington County Sheriff. The team is comprised of members from the Sheriff's Office, as well as members of fire departments in Washington County.

Dive gear is housed at 4 fire departments as well as the Sheriff's Office. The Sheriff's Office supplies 8 divers to the team, which include the dive team and assistant dive team leaders. There are an additional 16 trained divers from the following fire departments where dive gear is housed: Kewaskum FD, West Bend FD, Slinger FD and Richfield FD.

Divers are trained in numerous certifications which include: Open Water, Advanced Open Water, Rescue Diver, Night Diver, Dry Suit Diver, Deep Diver, Search & Recovery, Ice Diver & Public Safety Diver. Team members train monthly with joint trainings scheduled 6 times throughout the year.

The Sheriff's Office maintains 16 sets of dive gear, and other team equipment. Some fire department dive gear and fire fighter dive certifications are paid through donations in memory of Michael Mann.

In 2017 Sheriff Divers assisted Hartford Police with the search for evidence in a retention pond.

SPECIAL WEAPONS AND TACTICS TEAM

The Washington County Sheriff Office leads the Multi-Jurisdictional SWAT Team comprised of members of the Sheriff's Office and Germantown Police Department. The Sheriff's Office SWAT Team is a part-time team, meaning members have other primary assignments. Most of the members are from the Patrol Division. The Sheriff's Office has 18 members and the Germantown Police Department has 7 members on the SWAT Team. Those members include Command Staff, SWAT Operators, SWAT Technicians, Negotiators and Rescue Vehicle/ Command Post Operators.

The SWAT Team trains 12 hours per month to maintain their skills in the event that they are needed to respond to a high risk call/event. In 2017 the SWAT Team was activated for the following high risk calls/events:

January 11th- Assisted the Washington County Multi-Jurisdictional Drug Unit in taking a High Risk Suspect into custody

February 3rd- Assisted Slinger Police Department in taking a Mentally Ill subject into Protective Custody.

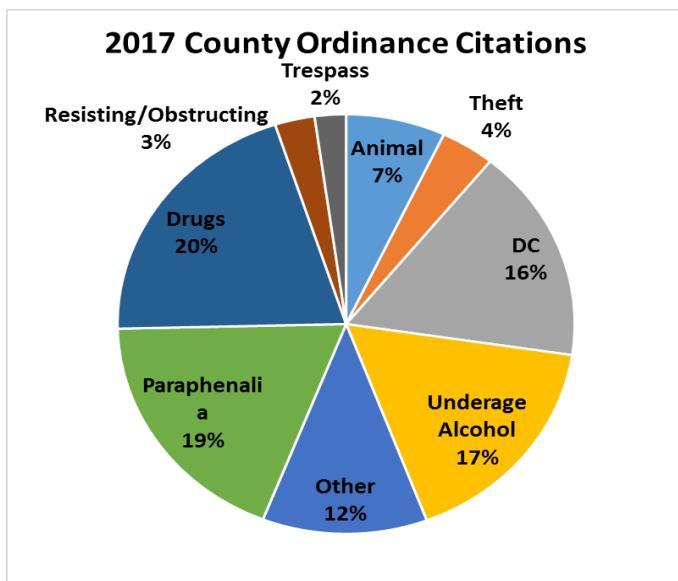

August 16th- Assisted the Patrol Division taking a High Risk Suspect into custody at Holy Hill.

August 27th- Assisted the Hartford Police Department in taking a Mentally Ill Subject into Protective Custody.

September 17th- Assisted the Patrol Division in taking a suspect into custody after a high speed chase and traffic stop, after the armed suspect refused to exit his vehicle.

COUNTY ORDINANCE ENFORCEMENT

A total of 497 county ordinance citations were issued by Deputies in 2017. The two largest group issued citations under this category were persons involved in Drugs and Drug Paraphenalia violations. Underage Alcohol violations were ranked third, which included juveniles and adults under the age of 21 who attempted to procure or were in possession of alcoholic beverages, or adults 18 and older that contributed to underage drinking violations. Disorderly Conduct also resulted in a significant number of county ordinance citations issued in 2017

DRONE

On May 4, 2017 the Sheriff's Office took delivery of the Inspire 1, an Unmanned Aircraft System (UAS), more commonly referred to as a drone. The Inspire 1 has a maximum flight time of 22 minutes reaching altitudes up to 400 feet above ground level. Included with the purchase of the Inspire 1 was a Zenmuse Z3 camera capable of taking high resolution photos and video with a 7x zoom lens, and a thermal imagining camera also known as a FLIR, Forward Looking Infrared Radiometer. The purpose of the UAS is to assist the Sheriff's Office with incidents that involve the safety of the public, search and rescue operations, criminal investigations, requests to support other agencies, and accident reconstruction.

The Sheriff's Office has trained ten remote pilots in the safe handling, operation, and the rules and regulations enforced by the Federal Aviation Administration (FAA). Having ten remote pilots allows the Sheriff's Office to maintain the UAS availability to first, second, and third shifts as well as the detective bureau. Remote pilots are required to attend an annual training and maintain their skills throughout the year. The remote pilots fly the UAS under a Certificate of Waiver or Authorization (COA) which was granted by the FAA and requires monthly reporting of flights in Washington County. In the eight months of use, the UAS has been successfully utilized in three criminal investigations, five missing/endangered instances, and three photo flights for the crash reconstruction team. Utilizing the UAS, deputies were able to significantly reduce the time and

manpower needed to cover large search areas, and deputies are now able obtain high resolution photos previously unavailable due to height restrictions. These images, when stitched together, allow the Sheriff's Office to create a 3D model of a crime scene providing a better representation of evidence.

TOWN LIAISON PROGRAM

In 2012, the Washington County Sheriff's Office developed a pilot Town Liaison Program with the Town of Polk. The purpose of the program was to develop a professional partnership with Town Officials increasing communication between the Sheriff's Office and Town Officials, while assisting townships enforcing Town Ordinances.

In 2016 the program was expanded to all the Townships within Washington County. The program has received very positive feedback from both Town Officials and Town Residents. The primary objectives of the program include:

- Attend monthly meetings, briefing Town Officials on activity and calls for service occurring in their respective Townships, including any major incidents.
- Facilitating communication, identifying concerns within the Township and passing information along to other deputies patrolling the townships.
- Assist and investigate violations of Town Ordinances and take enforcement action under the guidance of Town Officials.

Town Liaison Deputies are assigned to each Township on a voluntary basis. The following is a list of the current assignments:

Town of Addison-	Deputy Timothy Dexter
Town of Barton-	Deputy Ryan Gullickson
Town of Erin-	Deputy Bradley Bautz
Town of Farmington-	Deputy Morgan Dombrowski
Town of Germantown-	Deputy Justin Jilling
Town of Hartford-	Deputy Jonathan Binsfeld
Town of Jackson-	Deputy Andrew Meier
Town of Kewaskum-	Deputy Trevor Kohn
Town of Polk-	Deputy Jeremy Miller
Town of Wayne-	Deputy Jake Nickols
Town of West Bend-	Deputy Brandon Hood
Village of Richfield-	Deputy Keith Kiupelis/ Deputy Michael Anderson

SCHOOL VISITS

The safety of our children in our schools is a priority of the Washington County Sheriff's Office. The Washington County Sheriff's Office currently has 15 schools, both private and public in its response area.

The Sheriff's Office works closely with School Administration to develop safety plans that include lock down and response procedures, as well as recommendations for securing their buildings. In an effort to increase our presence at the schools, two deputies are assigned to each school in our response area. When school is in session the deputies are required to visit the schools at different times throughout the day. The feedback from School Administration has been very positive. The visiting deputies are able to address minor issues related to student behavior, address any safety concerns and establish professional relationships with both staff and students. Many times these deputies are invited to participate in activities at the schools to include reading to students and other fun extra-curricular activities.

The Sheriff's Office is committed to providing the best training available to our staff that may need to respond to a crisis situation within our schools. At the end of 2018 all deputies will have attended a 16 hour Active Shooter Course (ALERRT) instructed by the FBI.

In 2017 Deputies provided 1,404 visits to schools within our response area.

SEX OFFENDER NOTIFICATION & COMPLIANCE

Wisconsin State Statutes require people convicted of certain sex offenses to register with the Wisconsin Sex Offender Registry, a division of the Department of Corrections. Sex offender registrants are required to provide the state their current address, employment information, and school information, if they are attending school. During the 2017 calendar year, there was, on average, more than 196 individual registered sex offenders who resided in townships and villages in Washington County, where the Sheriff's Office provided exclusive 24-hour law enforcement protection

Even though there is no requirement for sex offenders to register with local Police and Sheriff's Office's by statute, the Washington County Sheriff's Office has made it our practice to do routine compliance checks on registered sex offenders living in areas which we serve.

In 2017 the Washington County Sheriff's Office also conducted 274 sex offender compliance checks. Only two offenders were found to be in violation of their sex offender registry requirements. It is our belief that the lack of violations can be attributed to the fact that the Sheriff's Office has been conducting random compliance checks for several years and offenders have been educated on keeping their information up to date. Also, offenders are now aware we conduct random checks and realize that failing to keep their Sex Offender Registry updated with their current information may lead to criminal charges for noncompliance.

In 2017, the Wisconsin Department of Corrections (WI-DOC) continued to lease a property located at 1725 Cty Tk NN in the Town of Jackson to house newly released sex offenders. Offenders allowed to temporarily reside at the residence had to meet approved criteria from their WI-DOC agent. The offenders needed to show continued effort in employment search if not already employed and searches for other approved housing when appropriate. Offenders were required to reimburse the State for living arrangements in certain cases. Our Office believes that an educated neighborhood is a safer neighborhood, Sheriff Schmidt has met with Town Of Jackson board members to discuss the sex offender residence on Cty Tk NN prior to a sex offender residing at the property. Deputies have went door to door in a pre-determined radius of the sex offender residence and handed out notification flyers containing informative sex offender information and fielded questions from those concerned neighbors. Once operational, Deputies made and continue to make checks at the residence. In 2017, there were no reported incidents from 1725 Cty Tk NN (regarding the offenders).

CIVIL PROCESS

Wisconsin State Statute 59.27 provides a statutory duty of the Sheriff to “Personally, or by the undersheriff or Deputies, serve or execute all processes, writs, precepts and orders issued or made by lawful authority and delivered to the Sheriff.” In 2017, the Washington County Sheriff’s Office served court papers relating to 1,351 different civil actions. Many of these actions had multiple parties to the actions that were served individually or by non-personal service.

2017 DETECTIVE BUREAU INFORMATION

The calendar year 2017 kept the detective bureau busy with cases. In 2017, with the assistance of the detectives, the County implemented a weekend on call rotation schedule. Detectives agreed to an on call schedule on weekends and holidays through the year. This increases efficiency in responding to major incidents that requires detective investigation. A detective was called in 70 times in 2017, a 7% increase from the prior year.

Some of the major investigations included:

04/28/2017 2017-15746, 17-21985, 17-23005 Business Burglary

A commercial burglary occurred on 4/28/17 to Cedar Creek Pet Resort in the Town of Jackson. Investigators responded to process the scene and several items of evidence were collected and sent to the Crime Lab. This burglary was related to a string of similar burglaries to small businesses that was occurring throughout southeastern Wisconsin. Washington County suffered 2 additional burglaries of a similar nature at the Beef Jerky Outlet & Logan's Pet Grooming, where a detective responded. Working with Detectives throughout the area, the suspect was identified as Raymond Smith. We were able to identify 2 specific vehicles used in the commission of these crimes. This info was disseminated to Detectives in the area and Smith was taken into custody by another PD on 6/27/17. On 10/12/17, the Crime Lab reported that DNA evidence from our crime scene matched Raymond Smith. Charges are pending against Smith for 3 counts of Burglary.

Business Burglary Suspects (Town and Country Lawn Care Services LLC. 17-26336):

In June 2017 and July 2017 Washington County area and surrounding counties were experiencing a number of evening and weekend business burglaries. On July 16th, 2017 two business burglaries occurred in the Town of Addison. As a result of those burglaries, a suspect vehicle was developed. A social media campaign was started and photos of the suspect vehicle were released to the public in an attempt to locate and identify the suspect vehicle. On July 18th, 2017 an observant citizen located the possible suspect vehicle. Deputies were able to identify the suspect vehicle and persons of interest in the on-going burglary investigations.

The Sheriff's Office obtained a court order to track the activities of the suspect vehicle and the persons of interest. Over the next several weeks, Detectives from the Washington County Sheriff's Office, along with Detectives from the Germantown Police Department, Pewaukee Police Department, Waukesha County Sheriff's Office, Racine County Sheriff's Office and Ozaukee County Sheriff's Office developed additional evidence linking the suspect vehicle and the persons of interest to nearly a dozen business burglaries. On August 1st, 2017 a surveillance team was assembled and the suspect vehicle was tracked to a business near Plymouth WI. With the assistance of the Sheboygan County Sheriff's Office two suspects were taken into custody during the commission of a burglary in progress in their jurisdiction. The suspects were identified as Jesse Maldonado and Pedro Perez-Aviles.

The investigation which was led by Detectives from the Washington County Sheriff's Office lead to clearance of Burglary cases in Sheboygan County, Racine County, Waukesha County, Village of Pewaukee, Village of Germantown and Washington County.

4/30/2017 2017-12265 Addison Station Burglary

An Investigator responded to an early morning report of a burglary to Addison Station. Suspects from the City of Hartford were identified, subsequently interviewed and admitted to their involvement. Suspects charged with Offenses ranging from Burglary, Burglary-Commit a Battery on Person, Theft, and Criminal Damage to Property.

06/15/2017 2017-22212 Airship Crash

Investigation of the crash of an advertising blimp just east of the 2017 US Open Golf event grounds. The pilot, who was the only occupant of the aircraft, sustained serious injuries as a result of the crash and was medically transported via Flight for Life with serious burns and injuries. The initial investigation reveals the blimp may have experienced mechanical problems prior to the crash. The Sheriff's Office has been in contact with both the Federal Aviation Administration as well as the National Transportation Safety Bureau to assist with the onsite investigation. The NTSB has yet to conclude their investigation.

01/06//2017 2016-40730 &2017-03264 Credit Card Fraud / Identity Theft

The Department took a series of complaints regarding credit card fraud/identity theft, in which the victims had their credit cards cloned by the use of a hidden skimmer device somewhere. The suspects appeared to be Cuban nationals that were travelling around the state using the cloned credit cards to load thousands of dollars onto Walmart gift cards. During our investigation, we were able to identify 8 victims that reside in Washington County who suffered a loss of approx. \$1400. We were able to identify and arrest the suspect in case #16-40730 - Kevin Martinez Fortun, a Cuban national residing in a suburb of Miami, FL. Fortun was granted a \$10,000 cash bond and absconded after attending some of his court appearances. The investigation allowed us to identify him from case #17-03264. We continue to work with a Federal Prosecutor out of Brown County to issue charges against these individuals, as well as Federal charges against Kevin Martinez-Fortun.

05/09/2017 2016-46640 Residential Burglary

We responded to a residential burglary which occurred at 2314 Hall Rd in the Town of Erin, on Christmas Eve, 2016. Blood evidence collected at the scene was submitted to the WI Crime Lab. On 4/14/17, the Crime Lab returned lab results with DNA identifying Michael Leiske. Leiske was taken into custody on 5/9/17, and later pled no contest to Burglary.

05/23/2017 2017-19098 Commercial Burglary / Damage to Property

A commercial burglary occurred on 5/23/17 to Sai Mart, in Allenton. An investigator responded and processed the scene. The investigation revealed that the suspect wore a mask, and broke the front glass door to gain entry. Once inside, the suspect smashed the glass top of a game to steal money and smashed the register with a hammer in an attempt to steal more money. Several items of evidence were collected and sent to the Crime Lab. On 10/2/17, the Crime Lab reported DNA that we submitted matched Jonathan Weton. Weton was in custody at the time for unrelated robbery charges from another agency. Charges are currently pending against Weton for Burglary & Criminal Damage to Property.

07/10/2017 2017-25514 Residential Burglary

07/15/2017 2017-26062 Theft from Vehicle

08/01/2017 2017-28372 Residential Burglary & Theft of MV

A rash of residential burglaries and motor vehicle thefts had been occurring throughout SE Wisconsin, involving a group of young male subjects from the north side of Milwaukee. On 7/10/17, we responded to investigate a residential burglary on Prairie Hollow Dr in the Village of Richfield. Several subjects entered this occupied residence in the middle of the night and stole a handgun, a laptop and a cell phone. During this investigation Corey Williams and Antonio Jenkins were developed as suspects. The investigation linked them to a theft from motor vehicle that occurred on 7/15/17 on Scenic Hill Trail, Village of Richfield. On 8/1/17, another residential burglary occurred on Conestoga Trail, in the Village of Richfield. A newer model Jeep Grand Cherokee was also stolen in this incident. Video surveillance showed Williams and another subject who was identified as Justin Powell. Corey Williams was taken into custody later that day and ultimately charged with 2 counts of burglary, 1 count of theft of a motor vehicle, and 1 count of theft from motor vehicle regarding all 3 of these incidents. Powell was charged with 1 count of burglary. Jenkins has yet to be located.

09/18/2017 2017-34904 Entry to Locked Coin Box & CDTP

We investigated an Entry to Locked Coin Box & CDTP at Ackerman's Grove County Park. A surveillance camera had been set up due to other complaints of theft from the boat launch fee collection box. Several photos of a suspect were put on a social media site and an area resident identified him as Joseph Fliss. Fliss was located and arrested and ultimately confessed. Fliss was charged with both violations, and later pled guilty to CDTP with the other charge dismissed and read in.

12/22/2017 2017-48054 Residential Burglary

On 12/22/17 a residential burglary occurred at 5615 Peters Dr in the Town of West Bend. Several tools and a TV were stolen from a detached garage at this location. A deputy took the initial complaint, and spoke to a neighbor who observed a suspicious vehicle parked on the road when the incident was believed to have occurred. The neighbor took a picture of a car and license plate and provided this info to the deputy who was able to develop Tucker Choy and Tiffany Gardner as suspects. Tucker and Tiffany were located separately, and arrested on outstanding warrants. A deputy located some of the stolen property in the vehicle that Tucker was driving and interviewed Tucker Choy, who denied involvement and then requested a lawyer. An investigator interviewed Tiffany Gardner and ultimately obtained a confession that implicated both her and Tucker. The investigator was able to recover the remaining stolen property in Tiffany and Tucker's bedroom at the apartment they had been living at for the past couple weeks. Charges of burglary were filed against both Tucker and Tiffany. Both have already pled guilty were sentenced.

17-30033- Attempted Homicide/Battery to Juvenile on Lawnmower

On August 14, 2017 we responded to a rescue call where the initial information was that an individual was operating a lawnmower and received some type of head injury. A detective responded to the scene and conducted an investigation which ultimately revealed that the 13 yr old victim on a lawnmower was brutally attacked by a neighbor with a hammer. The suspect was later apprehended by patrol officers who displayed great restraint when the suspect was displaying a hammer to the deputies when ordered to surrender. The suspect was taken into custody and was found to be not guilty due to mental disease or defect.

2017 MULTI-JURISDICTIONAL DRUG ENFORCEMENT GROUP

The Washington County Multi-Jurisdictional Drug Enforcement Group (Drug Unit) had a very active year in 2017. Three hundred seven charges resulted from Drug Unit activity against 74 individual suspects. 81% of these charges were for felony offenses. Thirty-six of these charges were for delivery of heroin. The primary drug threat in Washington County remains heroin due to overdoses, deaths, and numerous crimes resulting from addiction. Considering the tiny amount of .1 gram normally constitutes a dose of heroin, the 76 grams of heroin the drug unit seized in 2017 represents a significant quantity. This is the most heroin the Drug Unit has seized in one year since we made our first controlled purchases of heroin in Washington County in 2007-2008. Closely associated with the heroin threat are narcotic pharmaceuticals, abused with a similar effect to heroin and with similar results. Fifteen of the 307 charges were for delivery of narcotics similar to heroin. Due to the potency of fentanyl being higher than heroin, it is more dangerous. Seven grams of fentanyl were seized in 2017, being sold as heroin.

Cocaine and Crack continue an upward trend of availability. This availability is linked to the popularity of heroin. These drugs are often sold by the same dealers as heroin and used by the same addicts. Thirty one charges from 2017 were from the delivery of crack cocaine or powder cocaine with 263 grams seized in 2017.

A very serious drug threat which has still not developed in Washington County is methamphetamine. The Drug unit had 4 charges for delivery of methamphetamine in 2017, but this is all involving one case being worked cooperatively with DCI agents from the Milwaukee office.

Other drug related charges were for delivery of marijuana, delivery of lesser prescription drugs like methylphenidate or alprazolam, charges for possession of various drugs from heroin to marijuana, charges for drug paraphernalia, etc.

Some of the other drugs seized from 2017 Drug Unit operations include approximately 10 pounds of marijuana, 32 indoor grown marijuana plants, oxycodone pills, psilocybin mushrooms, Suboxone, and other drugs.

Often the Drug Unit cooperates in investigations and works cooperatively with the police departments in Washington County, other agencies such as surrounding county's Drug Units, The Wisconsin Department of Criminal Investigation, HIDTA Milwaukee, and Postal Inspectors. In addition to primary duties in 2017, the Drug Unit assisted local PDs with K-9 school searches, assisted with highway interdiction working with both K-9 and commercial motor vehicle inspectors, and provided 17 drug education presentations to the community.

COURT SERVICES

In the Washington County Justice and Government Centers, maintaining a safe and efficient working environment for court staff, county employees, Deputies and visitors, is the responsibility of the Court Services Division.

A Sergeant, three Deputies and two Special Deputies are responsible for courtroom security, prisoner movement, security requests and general building security, while two Special Deputies man the screening station at the secure entrance to the Justice Center.

The Washington County Most Wanted Program continued with Deputies assigned to the Justice Center researching and submitting subjects to be profiled by local media outlets. Of the 44 subjects profiled, 27 of the subjects were located after their profile was published in the paper and social media. Deputies have also been assigned to work with Child Support and area law enforcement agencies to locate subjects with warrants for non-payment of their child support.

During 2017 the Sheriff's Office and the Clerk of Courts Office collaborated in an effort to speed up the time frame patrol deputies would be made aware of arrest warrants being issued by Washington County Judges.

Prior to 2017 the process of an arrest warrant being made available to the patrol deputy could be as long as several days. This was due to the paper warrant being sent through the various offices using inter office mail then ultimately arriving at the Sheriff's Office several days after issuance. This process delayed law enforcement's ability to actively pursue wanted persons.

To speed this process up the Sheriff's Office worked directly with the Clerk of Court and the Judges to have warrants signed by the Judge during the court hearings or immediately after. The warrant would then be quickly processed by the Clerk of Court's Office, hand delivered to deputies assigned to the justice center and then hand delivered to the Sheriff's Office.

In addition, regular mass email notifications were prepared and sent out by Sheriff Deputies notifying patrol supervisors, command staff, investigators and patrol deputies of the newly issued warrants. Included in the notification was the type and severity of charges alleged, and last known locations of the person sought in the warrant.

This revised process has been very successful. In several cases, persons sought in the arrest warrant were taken into custody within hours of the warrant being issued by the judge. In even more cases, active warrants were acted on and suspects arrested within 24 hours of the Judge's order. This program has now been expanded to include notifications being sent to all municipal law enforcement agencies within Washington County.

TRANSPORTS

The Sheriff has a responsibility to transport individuals to and from court as a part of his constitutional duty to attend to the courts. In 2015 the Washington County Sheriff's Office contracted with Lock and Load LLC to conduct the majority of prisoner transports. The Sheriff's Office remained responsible for medical transports from the jail, and certain mental health transports.

TRANSPORT TYPE	DEFINITION	TRANSPORTS BY LOCK & LOAD 2016 TOTAL	TRANSPORTS BY LOCK & LOAD 2017 TOTAL
Order to Produce	The one-way transport of a single prisoner between the Washington County Jail and another jail or prison which is ordered by a judge.	505	505
Mental Transports	The one-way transport of an in-custody subject between a mental health facility and court.	305	311
New to Prison	The transport on an inmate from our jail to state prison to begin a new prison sentence.	132	135
Warrants	The one-way transport of a subject being picked up from another secure facility and being transported to the Washington County Jail on a Washington County warrant.	272	315
	TOTAL	1214	1359
TRANSPORT TYPE	DEFINITION	TRANSPORTS BY SHERIFF'S OFFICE 2016 TOTAL	TRANSPORTS BY SHERIFF'S OFFICE 2017 TOTAL
Mental Transfer	The transport of a subject either between mental health facilities or from a hospital to a mental health facility.	116	77
New to Prison	The transport on an inmate from our jail to state prison to begin a new prison sentence.	1	0
Medical Run	The scheduled transport of an inmate from the Washington County Jail to a medical facility for treatment and the return of the inmate to our jail.	43	105
Warrants	The one-way transport of a subject being picked up from another secure facility and being transported to the Washington County Jail on a Washington County warrant.	7	12
Other	Transports which do not fit into the above categories including pickups on revocation warrants, holds on criminal charges, and other misc. transports.	9	1
	TOTAL	176	195

COMMUNICATIONS

Dispatch Phone Calls 2017

In 2017, the Communications Center handled **102,837 phone calls**; 22,058 (21%) of those calls being 911 emergency calls received through land and wireless phone lines.

Wireless 911 calls = 19,671

911 Landline calls = 2,060

Administrative calls = 81,106

Total Calls in 2017 = 102,837

Mutual Aid Box Alarm System (MABAS) is a mutual aid measure that may be used for deploying fire, rescue and EMS personell in a multi-jurisdictional and/or multi-agency response. The Communications Divison is heavily involved with the set up and utilization of this program. In 2017 our division handled 6 such calls:

Kewaskum FD = 2

Germantown FD = 1

Hartford FD = 2

Kohlsville FD = 1

In addition to assisting the public via answering calls and dispatching resources, Officers in the Communications Center spend a significant amount of time working with data entry related to warrants, restraining orders and injunctions. Many of these entries are time sensitive. In the past year, 1,113 warrants originating from six agencies were entered into the TIME system:

2017 Warrant Entries	
Washington County Sheriff's Office	754
Slinger Police Department	*173
Jackson Police Department	*108
Kewaskum Police Department	*54
Town of Trenton Police Department	*23
Village of Newburg	1

* These totals lower than actual. Multiple warrants being entered at the same time may only be counted as one entry.

In addition, 192 restraining orders and 93 injunctions were entered into various data systems by Officers in 2017. Each month, up to 100 warrant and injunction entries need to be validated with the Crime Information Bureau. Data entry is an area that may require a dedicated position in the future.

2017 Fire Service Calls	
Agency	Calls*
Allenton Fire and EMS	291
Boltonville Fire First Responder	75
Fillmore Fire First Responder	67
Hartford Fire and EMS	231
Jackson Fire and EMS	759
Kewaskum fire and EMS	493
Kohlsville Fire and First Responder	155
Lifestar	492
Newburg Fire and EMS	355
Richfield Fire and EMS	603
Slinger Fire	140
St. Lawrence Fire First Responder	102
West Bend Fire and EMS	492
Ashippun (Town of Erin)	23

* Some calls may have been cancelled by the caller after they were paged out.

MOBILE COMMAND POST

The Sheriff's Office deploys a Mobile Command Post to significant incidents. Purchased with Homeland Security grant monies and built in 2011 by Pierce Manufacturing of Appleton, Wisconsin; the Mobile Command Post contains a complete radio and communication network, nighttime lighting capabilities, and sufficient work space to manage and command critical incidents. The Mobile Command Post also houses specialized equipment for the Sheriff's SWAT and Crash Reconstruction Teams.

In 2017, the Mobile Command Post responded to 9 in-county incidents:

- 6 Crash Reconstructions (for serious and/or fatal motor vehicle crashes).
- 1 SWAT response.
- 1 Crime scene investigation.
- 1 Night at the County Fair to facilitate on-sight communications.

In addition, the Mobile Command Post was also displayed at two public relations events in Richfield and Germantown.

PUBLIC RELATIONS AND DARE

In 2017, the Sheriff's Office conducted presentations on topics which included: career days, crime prevention, drug awareness, child safety education, traffic safety, bullying and internet safety. Over 50 organizations and hundreds of county citizens were served by these presentations, including local schools, clubs, youth groups, businesses, and service organizations.

The Sheriff's Office did child fingerprinting at multiple events in the county, providing hundreds of parents with ID cards for their children. The Sheriff's Office also sponsors the law enforcement booth at the Washington Co. Fair.

Deputies Niehus and Jilling serve as the core of the Sheriff's Office public relations efforts. Deputy Jilling is an active member of the group of volunteers that put together the Every 15 Minute Program. This intense program provides instruction to high school students on the dangers and consequences of drunk driving. This year, it was hosted by Slinger High School. Deputies Niehus and Jilling are very active in the community, providing presentations on behalf of the Sheriff's Office in areas such as drug awareness, traffic and pedestrian safety, tractor and farm safety, neighborhood watch, personal and home security, elder abuse, fraud awareness, bullying and Internet safety.

DARE (Drug Abuse Resistance Education)

DARE is a nationally recognized program that teaches children the skills needed to recognize and resist the pressures that cause them to experiment with drugs or become involved in violent activities. In 2017, the Sheriff's Office provided the DARE program to approximately 650 fifth grade students in 16 schools located throughout Washington County. The Department currently uses five certified DARE instructors. Schools served include:

ADDISON ELEMENTARY	HOLY ANGELS SCHOOL	ST. GABRIELS SCHOOL
